WILLIAM MCKINLEY.

EX-SECRETARY WM. C. WHITNEY surprised
his friends yesterday by getting
married to a widow lady, Mrs. E. S.
Randolph.

COMMANDER Booth-Tucker is putting
on foot a noble work in the City of
Chicago. It is a home for ex-convicts
who go out from prison into the world,
and are at that crucial time at a loss
to know whither to go to get a living.

"How will Mr. Bryan get the gold
back from the 'money power'?" Evidently
he must offer an inducement. What
inducement? To be sure, the mints
will be open to gold as well as silver.
But who will offer gold bullion to
have it coined into dollars when he
can have silver dollars with the same
legal-tender power at half price? Only
an idiot would do that."—Carl Schurz
at Chicago.

PHILADELPHIA may be classed as a
little slow, but she's solid sure, from a
business standpoint. Day before yesterday
John Wanamaker sent a man
over to live New York, and he bought
the entire stock and grand store building
of the defunct Hilton, Hughes &
Co., formerly A. J. Stewart. The boy-
faced man from Quakertown will show
Manhattan Island a few kinks about
running a corner store.

PARKERSBURG is to have a big Republican
meeting on Friday of this week,
the 2d of October. It will be held at
1 o'clock; and the principal speakers
are to be Bourke Cochran and John K.
Cowan. To accommodate persons desiring
to attend the railroads and steam-
boats will extend the favor of low
rates. There will probably be a large
attendance of Mariettians, to hear
these political heavy-weights. Around
Cochran especially settles possibly more
interest in this campaign than any
other campaigner.

OCTOBER 22d has been suggested as
the date for the McKinley club's visit
to Governor McKinley at Canton and
the Committee to make arrangements
for the trip are now working with that
end in view. The time appears to be
well chosen. The Committee should
receive hearty assistance from every
member of the Club and every voter
who expects to cast his ballot for Pro-
tection, Sound Money and the Country's
Honor. There are 600 members of the
McKinley Club, more than half of whom
are unorganized and it should be an easy
matter to make up a party of 500. Push
the good work along and make up your
mind to lay all manner of business
aside and go with the Club to extend a
formal greeting to the next President.

THE outrageous practice of distrib-
uting for advertising purposes samples
of pills and other patent nostrums on
the lawns and verandas of private resi-
dences is receiving deserved discouragement
in many cities. The Columbus
State Journal has the following:

Some time since The State Journal
contained an account of the poisoning
of a child on the West Side, from swal-
lowing samples of pills that were dis-
tributed as an advertisement. The
child who swallowed the pills was Wil-
liam C. Hoff, the infant son of Fred
Hoff of 603 West Town street. Yester-
day suits were filed in Justice Camer-
on's court by both the parent and the
child for \$300 damages in each case.
Charles F. Lentz is made the defendant
in the cases as it alleges that he is the
person that was responsible for the
distribution of the samples.

ture. Marietta Tailoring House, 220

THE MOST LUXURIOUS CITY.

Fabulous Amounts Spent Yearly by New
Yorkers.

John Gilmer Speed writes of the
money spent annually in "The Most
Luxurious City in the World," in the
October Ladies' Home Journal. He
asserts in a prefatory way that New
York is the most luxurious city in the
world, and that expenditures are made
on mere living with an elegance and
ostentation unknown in any of the
capitals of Europe. The total wealth
of New York would, if equally divided,
give to each man, woman and child of
that city \$3,756.82—an amount greater
than any other city in the world. Mr.
Speed states that \$20,400,000 are paid
annually to the lawyers of New York;
\$11,328,000 to physicians and surgeons;
\$3,000,000 to the clergymen; \$2,665,000
to architects; \$1,600,000 to dentists;
\$13,020,000 to brokers. An aggregate
of about \$10,000,000 for furs, \$30,000,000
for diamonds and other jewels, \$3,500,-
000 for cut flowers and growing plants;
\$20,000,000 on yachting (the boats rep-
resenting an investment of \$20,000,000),
which is something more than is spent
yearly on horses and carriages. The
elevated railroads take in \$12,000,000
for carfare, and the surface lines \$15,
000,000, a total of \$27,000,000 for going
about New York. Mr. Speed estimates
that \$31,837,500 are spent by New York-
ers each year in European travel, \$3,-
537,500 of which go for steamship tick-
ets. New Yorkers spend \$30,000,000
for beer and \$90,000,000 for wine and
spirits—about sixty-six and two-third
dollars for each person per year. In
their gifts to charities New Yorkers
are most liberal, \$9,000,000 being the
annual sum thus expended. More
money is spent in supporting and
furthering church work in New York
than is paid all theatres and play-
houses of the city. The total spent for
amusements is \$5,000,000, while consid-
erably more than \$6,000,000 is con-
tributed to the support of churches.

Effect of Free Silver on Railway Em-
ployees.

The third largest class of working-
men is that of employees on steam
railways. There are nearly half a
million of these. There is not the re-
motest possibility of an increase in
their wages under a silver standard,
but there is a strong probability of
either a reduction or a total loss, for
the railways would be the severest
sufferers, next to the workmen, from
a descent to silver. Railway
fares and rates could not be doubled.
The receipts of the companies would
be cut in half, while at the same time
the interest on their bonded debt
would have to be paid in gold. Every
railway in the country would have its
profits wiped out at a stroke by the
change, and many of them would be
driven into confusion and bankruptcy.
This has been the fate of Mexican rail-
ways under like conditions, and would
be inevitable here. Nothing could pre-
vent it except a doubling of all charges,
and this would simply put the burden
back upon the people, and still further
raise the prices of commodities. In
any event, the railways would be seri-
ously crippled, and would be in no
condition to pay higher wages.—[The
Century for October.

To Insure a Panic.

The difference between the goldbug
and the silverite in contemplating the
certain upheaval is that while the for-
mer claims it to be unnecessary and
uncompensated disaster, the silver lead-
ers insist that a panic would only be a
necessary evil, that it would "serve the
goldbugs right," and that the good to
the country to come from the adoption
of the silver standard would be so great
as to make up for the wreck of our
present commercial and financial struc-
ture and the consequent long paralysis
of trade. The present depression of
values, cancellation of orders, and un-
reasonable stagnation of business leave,
unhappily, no room for doubt as to the
accuracy of the general forecast of the
result of silver success in November.
So the question arises, "Are you will-
ing, silver dry goods merchants, to
wind up the business circus we have
been having since 1893 with a great,
big panic that would be no respecter
of persons, but would squeeze goldbugs
and silverites impartially?" A vote
for Bryan is a vote for a panic. Who
among you is willing to cast such a
vote?—Dry Goods Economist.

Council Proceedings.

Council met in regular session Tues-
day evening with all members present
except Rrenan and Garrison.

Building permits were granted to
John Mahanen, on Seventh street,
Walter Kirby, between Franklin and
Railroad streets, and J. W. Stanley, on
Second street.

A communication was received from
the Secretary of the Municipal Reform
League inviting Marietta to send dele-
gates to the convention at Chicago,
October 13, 14 and 15. Upon motion
the President was appointed a dele-
gate, with authority to appoint two
other members to constitute a delega-
tion. The appointment of the latter
two was deferred until next meeting.

The matter of the opening of the old
quarry road east of the city was re-
ferred to the Commissioner.

Mr. Rech submitted a resolution re-
quiring a six-foot brick sidewalk to be
constructed on the westerly side of
Sixth street from Putnam to Cutler,
which was adopted. A similar resolu-
tion for a sidewalk on Greene's road
from Seventh street to John Gearhart's
property was also adopted.

An application from owners of prop-
erty on Front street for a sidewalk
grade from Montgomery to the inter-
section of Second and Front was offer-
ed by Dr. Hardy and filed with the
Clerk. The Engineer was instructed to
furnish the desired grade.

Upon motion of Ridge the Commis-
sioner was ordered to repair and clean
the sidewalk on Fourth street at the
Washington street schoolhouse.

A resolution to pay A. T. Nye \$425
for land purchased for opening Marion
street was offered by Dr. Hardy and
adopted.

The matter of grading Lord street
was referred to the Councilmen from
the West Side for report.

Ridge moved that the surplus earth
from the street railway trench above
Washington be used in filling Front
street above Montgomery. Rech
stated that it is costing 25 cents per
load to move the dirt and suggested
that the work be let at contract.
Ridge's motion prevailed and the
method of transporting the dirt was re-
ferred to the Street committee, with
power to act, Rech voting no.

The matter of the proposed change
of grade on Third street above Wash-
ington was laid over until such time as
consent of every owner of abutting
property be obtained. The general
opinion of Council as expressed, was
against changes of grade in any par-
ticular.

Mr. Wood presented a draft of an
agreement between the city, The
United Terminal Company and the
Cleveland & Marietta railway, each
agreeing to pay one-third the cost of
paving Butler street from Front to
Second. During the discussion that
followed Ridge moved that the Solicitor
be instructed to investigate the
matter of the \$3200 owing to the city
from the Terminal Company on the
Second street paving contract. The
contract submitted by Mr. Wood was
adopted as read.

The Z. & O. R. railroad company was
authorized to lower the grade of a
switch to the handle bar factory on the
West Side.

An ordinance establishing sidewalk
grades on the north side of Greene
street, was passed to the second and
third readings under suspension of
the rules and adopted.

The bill of Contractor Thorniley for
extra work on the Putnam street
bridge was presented and allowed.
Bills allowed; Council adjourned.

Marcus A. Hanna.

Serene in the midst of the confidence
that all is well, Mr. Hanna in his smil-
ing, clean-shaven, and clear-eyed com-
posure, more apprehensive of an over-
drawn sense of security than of alarms,
vibrates between the city of commerce
and the city of conventions, collected
and vigilant as the engineer who man-
ages the engines of a twin-screw
steamer, confident that if there is no
relaxation in well-going no tempest
can come out of the skies south or east
or west to stay the course of the ship
safely to the port that the chart and
compass tell is right ahead. Mr. Hanna
is the new man in politics, the man of
affairs of his own, finding time for un-
official business. This is not of evil;
there is not a better sign of better
things. The element of which Mr.
Hanna is a type is needed to stand
firmly for the balances of power with
which the fathers conserved the Repub-
lic—and this representation of the an-
cient civic and national pride in our
government under the Constitution as it
is, has not come to us without cause,
or appeared too soon; and when the
contest is over and won, Mr. Hanna
will deserve well of his country that
he is serving for the sake of principle
with motives and for considerations,
that contemplate only his fair share,
as a laborious and faithful citizen of
the general welfare.—Murat Halstead,
in October Review of Reviews.

A Valuable Prescription.

Editor Morrison, of Worthington,
Ind., "Sun," writes: "You have a val-
uable prescription in Electric Bitters,
and I can cheerfully recommend it for
Constipation and Sick Headache, and
as a general system tonic it has no
equal." Mrs. Annie Stehle, 2625 Cot-
tage Grove Ave., Chicago, was all run
down, could not eat nor digest food,
had a backache which never left her,
and felt tired and weary, but six bot-
tles of Electric Bitters restored her
health and renewed her strength.

SILVER CALENDAR.

What the Leading Nations of the World
Did.

The following financial calendar of
the past quarter of a century shows
what the leading nations of the world
have done with silver during that period:

1871. Germany adopted a gold standard.
1873. Belgium suspended standard silver
coinage.
1873. Holland suspended silver coinage.
1873. Denmark adopted a gold standard.
1873. Germany demonetized silver coins.
1873. Norway adopted a gold standard.
1873. Sweden adopted a gold standard.
1873. United States suspended free coinage of
silver dollars.
1874. The Latin Union limited their silver
coinage.
1875. Suspension of silver coinage in Italy.
1875. Switzerland declined to coin her quota
of silver under Latin Union.
1875. Suspension of silver coinage on account
of Dutch coins.
1876. France suspended the coinage of silver.
1877. Finland adopted the gold standard.
1878. Spain suspended the free coinage of
silver.
1878. Latin Union suspended coinage of silver
except subsidiary coins.
1878. United States resumed coinage of the
silver dollar, but on government ac-
count.
1879. Austria-Hungary suspended the free
coinage of silver.
1880. Egypt adopted a gold standard.
1880. United States suspended coinage of sil-
ver dollars and began the purchase of
bullion.
1891. Gold standard adopted in Tunis.
1892. Austria-Hungary adopted the gold stand-
ard.
1893. Mints of India closed to the free coinage
of silver.
1898. United States suspended purchase of
silver bullion.
1898. Russia decided to coin 100,000,000 gold
rubles.
1898. Chile adopted the gold standard.
1898. Costa Rica adopted the gold standard.
1898-1899. Three international conferences
held to try to re-establish the use of
silver.

Meantime the United States increased
her full legal tender silver 50 fold in the
face of a 50 per cent fall in its value,
until her credit and financial standing
could stand the strain no longer, and
she was obliged, reluctantly, to
suspend silver coinage.

What would happen if she were to re-
sume, and open wide the doors of her
mints to the discarded silver of the
world? It does not require much of a
financier to answer that.

DOMINION SILVER DISCOUNTED.

National Banks of Sandusky Retaliate on
Canadian Institutions.

SANDUSKY, O., Sept. 28.—The four
National banks of this city have posted
a notice to the effect that they will
hereafter accept Canadian silver only
at a discount of twenty per cent. An
extensive trade is carried on between
Canada and this city. The action of
the local bankers is in retaliation for
the position assumed by bankers across
the lake, who have refused to accept
American silver except at a discount.

The Ideal Panacea.

James L. Francis, Alderman, Chicago,
says: "I regard Dr. King's New
Discovery as an Ideal Panacea for
Coughs, Colds and Lung Complaints,
having used it in my family for the
last five years, to the exclusion of phy-
sician's prescriptions or other prepara-
tions." Rev. John Burgess, Keokuk, Iowa,
writes: "I have been a Minister of the
Methodist Episcopal Church for 50 years
or more, and have never found any-
thing so beneficial, or that gave me
such speedy relief as Dr. King's New
Discovery." Try this Ideal Cough
Remedy now. Trial Bottles Free at
